

Paul Onome Omude

Stillwater, Oklahoma, USA | omudepaul@gmail.com | linkedin.com/in/paulonome

RESEARCH INTERESTS

Cybersecurity · Network Security · Data Privacy · Applied Cryptography · Artificial Intelligence · Machine Learning · Named Data Networking (NDN) · Internet of Things (IoT) Security · Blockchain for IoT · Graph Machine Learning · Distributed Systems

EDUCATION

Ph.D. in Computer Science (In Progress) | Jan 2026 – Present

Oklahoma State University, Stillwater, Oklahoma, USA

Relevant Coursework: Artificial Intelligence · Operating Systems · Computer Networks · Advanced Computer Science Research

M.Sc. in Computer Science | 2019 – 2021

Tai Solarin University of Education, Ijagun, Nigeria

Thesis: Development of a Model for Prediction of Economic Recession in Nigeria Using Support Vector Machine and Artificial Neural Network

B.Sc. in Computer Science | 2015 – 2018

Tai Solarin University of Education, Ijagun, Nigeria

Project: Dynamic Imitation of a Humanoid Robot Through Non-Parametric Probabilistic Inference and Eigen Poses

Award: Best Graduating Student, Department of Computer Science

CURRENT RESEARCH

Research Assistant / Ph.D. Researcher | Jan 2026 – Present

Oklahoma State University, Stillwater, Oklahoma, USA

- Machine learning-based intrusion detection in networked systems
- Detection and mitigation of Interest Flooding Attacks in Named Data Networking (NDN)
- Data privacy and security in distributed environments
- Secure IoT systems design and network traffic analysis

Cloud Security | 2025 – Present

RESEARCH PROJECTS

Economic Recession Prediction Using SVM and ANN | 2019 – 2021

- Developed predictive models using macroeconomic indicators from Nigerian economic datasets.
- Evaluated model performance using statistical and machine learning metrics including accuracy, precision, recall, and F1-score.

Humanoid Robot Motion Imitation System | 2015 – 2018

- Designed control algorithms for robot movement and gesture replication using non-parametric probabilistic inference and Eigen Poses.
- Implemented core modules in C programming; project recognized as best undergraduate final-year project in the department.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, SQL

Machine Learning & AI: Scikit-Learn, TensorFlow, Artificial Neural Networks (ANN), Support Vector Machines (SVM), Data Analytics

Networking & Security: Network Security, Cryptography, Named Data Networking (NDN), Wireshark, Linux Systems

Tools & Platforms: Git, Linux, Docker, LaTeX, Microsoft Office Suite

ACADEMIC & TEACHING EXPERIENCE

Graduate Teaching Assistant | Jan 2026 – Present

Oklahoma State University, Stillwater, Oklahoma, USA

- Support undergraduate instruction in computer science courses and laboratory activities.
- Provide academic mentoring, grading, and office-hour support for enrolled students.

Lecturer / Instructor | 2021 – 2025

Tai Solarin University of Education, Ijagun, Nigeria

- Taught undergraduate courses including Introduction to Programming, Data Structures, and Computer Networks.
- Supervised final-year student projects in artificial intelligence and software development.

LEADERSHIP & SERVICE

- Representative, Nigerian Association of Computer Science Students (NACOSS)
- Team Leader, Departmental Computer Science Competition Team
- Volunteer Tutor, Gospel Student Fellowship — supported peer academic development
